

# Winter Storage at Chicago Harbors

## Location & Convenience

The Chicago Harbors are pleased to announce winter storage at Montrose and DuSable Harbors for the 2011-2012 winter season. These locations offer boaters easy access and short travel times within the Chicago Harbor system.

Both locations will offer secure storage with 24 hour security in fenced-in compounds.

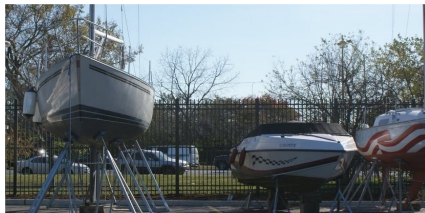

Boaters may perform maintenance on their boats themselves or make arrangements with any of our authorized service providers\*.

Boaters may also simply choose from a list of services from a pre-arranged marine service contractor when they complete their storage contract.

Boaters may request to have their boats hauled out as early as October 1st and launching as early as April 1st.\*\*

\* Environmental fee may apply

\*\* Dependent on weather and scheduling

## DuSable Harbor

Located in the heart of the city, between the Chicago locks and Monroe Harbor, DuSable Harbor is a short boat ride from any Chicago Harbor. This covered storage facility is in a newly fenced-in parking lot underneath Lake Shore Drive.

DuSable will offer storage for power boats up to 40 feet in length.

## Montrose Harbor

Montrose Harbor, located at the northern edge of Lincoln Park, offers a convenient storage location for power and sailboats alike.

Located in the newly renovated north parking lot, Montrose offers storage for up to 300 boats.

Montrose will accommodate power and sailboats up to 45 feet in length. Sailboats may also be stored mast up, eliminating the need for mast-stepping.

## Flexible Haul Out/Launch

Boaters can make arrangements for early drop-off and later pick-up of their boats. We also don't require boaters to be present for launching and haul-out of their boats.

## Competitive Pricing

We offer competitive pricing without extensive additional costs added on. Storage prices include your haul-out, launching, blocking your boats and placing it on stands at no additional cost.

Boater's may also elect to have their boat stored on their own cradle or trailer. We also offer storage options for the cradles and trailers.
